

**PAL
MOD**

GERMAN
CLIMATE
MODELING
INITIATIVE

Newsletter 08 / 2021

Dear PalMod members,

welcome to the summer edition of the PalMod Newsletter.

Even if it is holiday season and everything seems to be relaxed, a lot of things are going on behind the scene.

Right after the General Assembly end of May we kicked off the conceptional work for PalMod Phase III. Starting from your discussion in the BOGs we drafted a possible structure for the last phase of our project.

PalMod Phase III

WG 1: Coupled
simulations and
implications for
climate projections

WG 2: Climate
variability, tipping
points, and feedbacks

For this, everyone is invited to hand in project sketches – so if you have an idea, please contact your topic PI as soon as possible.

Moreover, we have to hand in our DKRZ resource request two month earlier this year (end of August) - but then we will have the opportunity to use the new Levante computer at DKRZ in parallel with Mistral for 2 months (Nov and Dec 2021).

Last but not least: please have a look to the long list of recently published PalMod or PalM od related papers!

SAVE THE DATE for a talk of PalMod Seminar Series

Fri., 9. Sept.2021, 11h:

U. Mikolajewicz (MPI-M) & J. Lippold (Uni Heidelberg):

A data and model perspective on the Atlantic Ocean circulation from the Glacial to the Holocene

Connection details:

Update on Milestones and Deliverables

Updated traffic lights, 02.08.2021

C	D	H	I	J	K	L
WP	WG	Due To	Days	▼	Responsible	Task
WG3	WP3.3 M1	30.06.21	-33	Marum, AWI-B		Transient simulations including water isotopes for an abrupt climate change event during MIS3 and Termination I set up and ready to run
WG3	WP3.1 M3	30.06.21	-33	Marum		Development of age modelling strategies for time series without radiocarbon age control
WG3	WP3.3 M3	30.03.21	-125	AWI		Spectral estimation methods established and tested
WG3	WP3.3 D4	30.03.21	-125	AWI-P		Documentation of the spectral estimation method accounting for proxy biases
WG2	WP2.1 M1	30.06.21	-33	AWI		Adjust REcoM model for simulating prognostic atmospheric CO2 concentrations, including fluxes from weathering, and volcanism.
WG2	WP2.1 M2	30.06.21	-33	AWI		Include iron sources from marine shelves, rivers, hydrothermal activity and sea ice in REcoM
WG2	WP2.3 M1	30.06.21	-33	MPI-M		Transient deglaciation experiment with improved atmospheric sink component performed, publication draft
WG2	WP2.1 M4	30.06.21	-33	CAU		Transient effect of aeolian dust deposition changes and of temperature and sea level variations on ballasting implemented in HAMOCC
WG2	WP2.2 M1	30.06.21	-33	MPI		The development of vegetation and terrestrial carbon on exposed shelves and the leading factors for this development are figured out
WG2	WP2.2 M3	30.06.21	-33	PIK		Quantification of carbon cycle feedbacks operating through shelf processes during glacial inception and deglaciation with CLIMBER-X
WG2	WP2.3 M5	30.06.21	-33	MPI-C		Analysis of methane sink in transient simulations, publication draft
WG2	WP2.3 D3	30.06.21	-33	MPI-C		Publication on transient deglaciation experiments with methane sinks submitted
WG2	WP2.1 M5	30.06.21	-33	MARUM		Transient simulations including marine carbon isotopes for an abrupt climate change event during MIS3 and Termination I set up in CESM and ready to run
CC	CC2 M5	30.04.21	-94	HZG		Publication of initial standardized proxy data
CC	CC2 M10	30.06.21	-33	U Bonn		Bayesian framework set up and examples of probabilistic evaluations of temperature and precipitation in time slice simulations against pollen synthesis / macro fossils available
CC	CC2 D8	30.06.21	-33	Uni Bonn		Plugin for Bayesian framework of spatial evaluation (time slices) documented and ready for integration in toolbox
CC	CC2 M14	30.06.21	-33	UHD		Spatio-temporal plot workflow for the model-data comparison toolbox facilitating visual browsing of results

You find the documentations of all Milestones and Deliverables completed here:

<https://www.palmod.de/group/palmod/milestones-deliverables>

If you meet a milestones or deliverable let me know, so I can remove it from the list - if you have to shift a milestones or deliverables, please contact me (kfieg@geomar.de)

Informal update on the use of DKRZ resources, 02.08.2021

DKRZ Project	[n*h] Granted for 2021	[n*h] Used by 02.08.2021*	[n*h] to be used until next cut (end of September)
0989 / WG1	1.197.637	761.832	136.395
1030 / WG2	670.282	357.626	145.085
1029 / WG3	151.200	101.218	12.182
0993 / CC	125.737	56.422	37.880
1192 / CC2-DM	0	0	0
